Grading Procedures (from Handbook)

Grades will be established on the following basis, using homework, assessments, participation, and other standard forms of evaluation of students.

Semester Grades, Grades 7–12

The cumulative grading system calculates a student's grade in a class that counts each new assessment point as it's assigned throughout the semester. Exams will be 20% of the total points for each semester calculated through PowerSchool.

Note: 1st semester exams are required. 2nd semester exams--students will be exempt from exams if they have a semester grade of 90% or better unless the teacher requires the final exam to be taken. Students who are present at school and are not required to take an exam will check in at the Cave.

Make up Work (from handbook)

A student who is absent or truant from school must be responsible to get any assignments he/she needs to complete. The student has the number of days absent following their return to make up their work. This is a minimum; teachers are encouraged to hold students accountable for make-up work allowing a reasonable amount of time. Students excused for school sponsored activities must meet all classroom activities. Any missing assignment/test/etc will be entered into the grade book as a zero, whether excused or not, until the assignment is turned in.

Academic Integrity:

Academic Integrity is defined as behavior that is consistent with moral and ethical academic standards. Such behavior can be described as completing work independently and on time, proper documentation of research in reports, paying attention in class, working cooperatively within a group, refraining from copying other people's ideas and work, or discouraging others to engage in this type of behavior. **Academic Dishonesty** is defined as behavior that is **not** consistent with moral and ethical academic standards. Such behavior can be described as plagiarism, cheating or copying the work of another, using technology for illicit or illegal purposes, or any unauthorized communication between students for the purpose of gaining advantage during an examination.

More specific forms of academic dishonesty include:

- Looking at someone else's work, or knowingly allowing someone else to look at one's work during an exam, test, or quiz.
- Using any kind of "cheat notes" during an exam, test, or quiz.
- Having access to or using stolen exams, tests, or quizzes.
